

| External Data Requests | | | |
|---|---|------------------------------|---|
| Requesting Organization | Name of Study/Request | Approved by Committee | Status Update |
| DE Child Death Review Commission | Child Death Review Commission's Access to Provider Names Data Set | 5/4/2020 | Sample data has now been delivered, awaiting on feedback |
| Christina Care, Value Institute | Memory Ambassadors: A Community-Based Neurocognitive Screening Program | 3/2/2020 | Met with team on 3/19. They are sending us reference tables but their study won't begin until May when they receive funding |
| U.S. Centers for Disease Control and Prevention | Exploring the Utility of Electronic Health Records and Health Information Network Data to Determine Potential Health Impacts of Exposure to Perfluorinated Compounds (PFCs) in Drinking Water | 7/8/19 | Claims data has now been delivered. Clinical data still in process. Will rerun claims data on Medicare data, when new data is available |

| Internal Data Requests | | | |
|---|---|---|--|
| Collaborating State Agency | Name of Study/Request | Research Aim/Question | Status Update |
| State Council for Persons with Disabilities | DE Brain Injury Study | How many DE residents get brain injuries each year and what services do they receive? | After this initial 9/2019 data request, this group has now asked for analytic services and support from DHIN. Service agreement has been signed and groups are now meeting to discuss request. |
| Delaware Division of Public Health | Feasibility of Using Health Care Claims Data to Estimate the Cost of Lung Cancer Care in Delaware | How many instances of lung cancer are there in DE and what is the healthcare cost to the State? | DHIN sent updated data (to include newly processed data) on 6/15. Next meeting is in two weeks. |
| DMMA | Patient Volume for MCO Providers | DMMA is interested to see whether this type of request can be fulfilled by HCCD and if so, would be a part of the IAPD/DMMA regular extract | We received request on 4/1. TL is pulling data |
