

Delaware Health Information Network

What patients should know about DHIN

- When your doctor sends you for a test, DHIN helps you by making sure your test result gets back to your doctor safely and quickly.
- Your doctor gets test results as soon as they are ready. If you are sick, DHIN can help your doctor treat you faster.
- DHIN helps to protect your information better than paper by tracking who has looked at your information.
- You can request a report from DHIN that tells you who has viewed your information.

Better Communication for Better Healthcare
