

**Appendix B to DHIN-Practice Master Agreement
DHIN Service Package Options & Pricing**

DHIN offers several services to ambulatory practices which are available in a variety of packaged options. Practices are financially encouraged to send CCD information into the DHIN in order to make more patient information available in the Community Health Record, facilitating better transitions of care. Practices receive an equivalent discount of \$200 annually by sending in their patient CCD records to the DHIN.

Providers - Package Options

	Option 1	Option 2	Option 3	Option 4	Option 5	Option 6	Option 7	Option 8
CHR Access	X	X	X	X	X	X	X	X

CCD Exchange		X			X	X	X	X
PHR Portal				X		X	X	X
Not Signed Off								X
Price - per practice	\$400	\$200	\$500	\$500	\$300	\$300	\$400	\$800

Please select the service package option for your organization _____.

Additional Service:

Medication History is invoiced annually. The price is \$330 times the number of providers with access in the Community Health Record (CHR). Your invoice will indicate the number of providers for which you are being billed. Check the box below if your organization wishes to subscribe to Medication History.

*** Prices quoted above are good for the fiscal year (July 1 – June 30) in which this agreement is executed. Pricing terms will be updated (and are subject to change) in May of each year for the coming fiscal year. Your organization will be notified of any changes in pricing prior to May 31. Continuation of services past July 1 constitutes acceptance of the pricing terms. The pricing above is based off of a standard HL7 integration and implementation. Pricing may increase if it is discovered through the technical process that implementation will require customization. Your organization will be informed of any pricing changes prior to the initiation of services, and the parties will amend this pricing agreement to reflect any agreed-upon changes to pricing terms deemed necessary during the technical process. ***
