

DHIN Community Health Record

Multi-Factor Authentication Guide

Download Authenticator

If you do not already use an authenticator, download an authenticator app on to your mobile device. We recommend Google Authenticator. Scan the QR code with your mobile phone to download the app.

Android

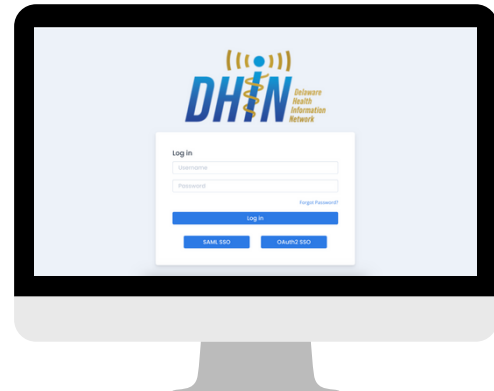

iPhone

Google Authenticator

Log in to CHR

Log into DHIN's new CHR by going to prodchr.dhin.net and entering your username and password.

Add CHR Account To Your Authenticator App

Open your authenticator app on your mobile device and click the "+" button. Scan the QR code that is presented in the DHIN CHR. Enter the 6 digit code generated from your authenticator app in to the MFA field in the CHR.
