

DHIN Community Health Record

Multi-Factor Authentication Guide (Google Chrome Browser Extension)

Download Authenticator Extension

Go to the Google Chrome web store and search “Authenticator.”

Click on the extension, then click “Add to Chrome.”

Click “Add Extension” when prompted.

Click the puzzle icon on the right side of the chrome address bar.

In the drop down menu, click the pin icon next to Authenticator.

The Authenticator icon will now be available next to the Chrome address bar.

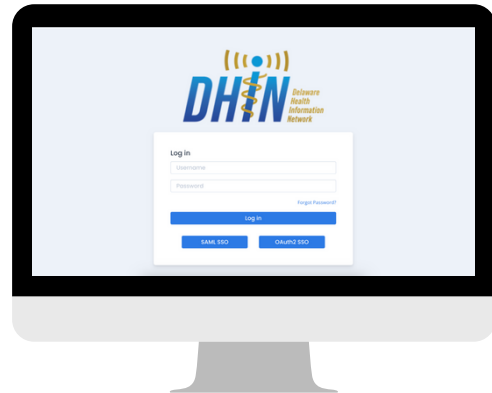

Add to Chrome

Add "Authenticator"

Log in to CHR

Log in to DHIN's new CHR by going to prodchr.dhin.net and entering your username and password.

Add CHR Account to Your Authenticator App

Click the authenticator icon next to your address bar.

Click the “Scan QR Code” icon.

Use your cursor to drag an outline around the QR code.

Your CHR MFA code will now appear when you click the authenticator icon.

Click the code to copy it into your clipboard, then paste in the MFA field.
